Briefing

Het idee is om een open data app te maken waarbij vooral de nadruk ligt op het samen krijgen van mensen met kinderen aan de speelpleinen in en rond Gent. Ook helpt deze app om meer groen in Gent te zien en de mening te delen met andere mensen. Het doelpubliek is dan ook vooral gebaseerd op mensen met kinderen.

Functionele analyse

De open data van Gent zorgt voor de informatie binnen deze app. De dataset die gebruikt werd is deze van speelterreinen. Deze app zal het mogelijk maken om een rating te geven aan de terreinen. Ook is er een overzicht op de map, een beschrijving van elk terrein en van de toestellen die aanwezig zijn.

Het plaatsen van reacties en het posten op social media zal mogelijk zijn op deze app. Buiten de app zal er ook een informatieve site worden gemaakt om zo de mensen te overhalen de app te gebruiken. Het inloggen via social media accounts zal binnen deze app mogelijk zijn.

Wanneer mensen de app regelmatig gebruiken dan kunnen ze de leider of verantwoordelijke worden van dit terrein. Bij eventuele vragen of opmerkingen kunnen andere gebruikers bij deze persoon terecht.
